

## Follows you everywhere!

Mobile3 is the "all terrain" tool that accompanies you throughout the day : thanks to its clever strap, it fits your arm and attaches to any steering wheel for extra freedom.

A new ergonomic, lightweight, thin and compact design, specially designed for the Workshop environment.

Hardened protection against falls with silicon reinforcements and ABS PC shell.

11 inch touchscreen (stylus and finger), webcam, and integrated Bluetooth and wireless modules.

Benefit from Multi-Diag, combining advantages of a tablet !

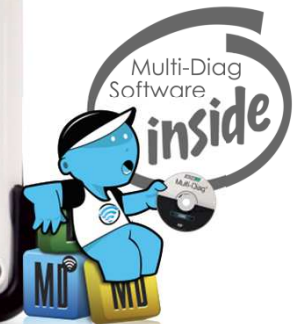

A unique solution, design and model patented by ACTIA.

# MULTI-DIAG® Mobile 3

Ergonomic & lightweight

The Workshop is your playground !

## Being ACTIA Customer

Diagnosis partner for major manufacturers, Multi-Diag has become a benchmark in the multi-brand diagnostic market, building a community of over 150,000 users.  
Choosing Multi-Diag means benefitting from a software coverage each day richer, from a performing assistance, from online services always available to get the very most from your equipment.  
It means benefitting from software and hardware solutions specially design for the Workshop environment, innovative and scalable, at the forefront of new standards.  
It's choosing the best for your team and for your workshop.

# MULTI-DIAG®

## Mobile 3

### Ergonomic & lightweight

#### Mobile3 : the "all terrain" tool that accompanies you throughout the day

Its new ergonomic, lightweight, thin and compact design is specially designed for the Workshop environment. Thanks to its clever strap, it fits your arm and attaches to any steering wheel for extra freedom and hands-free manipulation.  
With its non-slip grip, Mobile3 does not slip and does not scratch the bodywork.

Against falls, its hardened protection is made of thick silicon reinforced by ABS PC shell (material used for special police defence shield !)

Its ergonomic active stylus offers the best in precision and simplicity.  
11 inch touchscreen (stylus and finger), webcams, and integrated Bluetooth and wireless modules.

Running Windows, Mobile3 may also receive other applications.  
Ultra fast and efficient: a few seconds to start.

With Mobile3, benefit from Multi-Diag software and its Vehicle Communication Interface :  
All automotive service and repair operations, on all systems and over 45 makes.  
Benefit from online services to increase even more performance and productivity.  
Develop your business and increase customer loyalty.

Benefit from Multi-Diag, combining advantages of a tablet !

A unique solution, design and model patented by ACTIA.

#### Technical features
